

May 2007

Congratulations to the participants attending the Horticultural Therapy International Conference! We wish that you have a successful and meaningful conference. We commend Ms. Yumiko Kan for gathering everyone at this Conference to work together for the mentally challenged

Hawaii Community College supports the mission of the Japan Horticultural Therapy Council group and looks forward to working with Ms. Kan in bringing over mentally challenged participants, parents, and staff from all over the world to Hawaii for short-term International Job Training Education.

Best wishes and aloha!

Sincerely,

Debbie Shigehara
